

Final Project

Justin Gerald Loleng
BSIT - 3A
MD 101 Mobile Application Development 1

Application Name: Daily Drip Menu

Rationale: This app is for my friend's store a coffee shop, the menu of their coffee will be displayed along with price and details then an add to cart for payout, it helps the shop to organize what the customer orders and to attract customer of the minimalist design of the app also it display the best selling coffee drinks.

Features: Show Best Selling Coffee, Interactive Design, Add to cart, Minimalist design, Order Details and Summary(with name), Confirmation of payments, Offline Menu App, Pop up Dialog for Confirmation of coffee.

Target users: Students mostly get attracted to the minimalist design of the app.

Importance and Novelty of Application: This app for time efficiency, convenience, order accuracy, and order tracking, also the novelty of it is coffee recommendations displaying the best coffee in the shop, it is an interactive app for the customer, and it is an offline app
